*Just in time for  
“Winter Driving”*

### **“The Skid Monster” (recently seen on KHQ News)**

The “**Skid Monster**” is a vehicle control simulator, a speed control simulator, and a traction loss simulator. It’s an exciting, challenging and unforgettable teacher.

Drivers learn:

- \* How vision keeps car control
- \* How as little as 1 -2 mph of speed change can be the cause of a major skid.
- \* To feel reduced grip between the road and tires, and where the envelope of traction exists.
- \* Crash avoidance skills and reacting to secondary skids.
- \* How to prevent, detect, and recover from adverse conditions.

New drivers, experienced drivers, young drivers, and seasoned drivers, the Skid Monster gives you the opportunity to practice correct behavioral techniques. The Skid Monster allows drivers to gain confidence while experiencing failure and success in a safe environment. This *XTREME CONTROL* encounter is for the entire family.
